

Training Session
Classification of Soils using LP7

Date of Training : 21st December 2005

Trainer : Bill Cohen

Attendees : Owen Smith, Kathleen Menzies, John Gallacher, Amanda Murphy, Patrick Allen, Lynn Stewart, Paul Geri.

Attendees were instructed in:

1. The need for soil classification and its relevance to MCERTS accreditation.
2. The different types of soils which may be submitted to the laboratory (Clay, Sand/Gravel, Fill etc).
3. How to recognise the different soils types from visual inspection
4. How to perform an examination .
5. How to record the result on Form MCERTSClassificationEastKilbride.
6. The limitations of the descriptions ie these are for MCERTS purpose only.
